

Metal Detectable MFPEN

Part Number: MFPEN

Product Description: The MFPEN is designed to offer the most luxurious writing experience a detectable pen offers smooth and clear writing on nonglossy surfaces, best suited to production environments with an ambient temperature.

The ink cartridge is made from nickel-plated brass and is fully and permanently enclosed within the dual detectable XDETECT pen body. It is also supplied with an XDETECT 2.0 dual detectable cap to prevent the ink from drying out. This cap attaches firmly to the top of the pen when not in use.

- Product Advantages:**
- Detectable by industry standard in-line metal detection systems
 - Bright blue colour for easy visual identification
 - Strong, durable, smart and convenient
 - Can be used to form part of HACCP and BRC procedures
 - Food grade material suitable for food contact applications
 - Displays due diligence in the prevention of foreign body contamination
 - Compliant with EU & FDA food contact legislation, including mandatory EU migration test standards

Color: Blue Body/Black Ink

Pack Size: 10

Product Materials: Polypropylene combined with selected non-toxic, food safe metal detectable, x-ray visible and antimicrobial additives

Material Physical Properties:

Property	Value	Test Methods
Specific Gravity:	1.10 g/cm ³	ISO 11183
Water Absorption (at saturation, 23°)	0.02 %	ISO 62
Humidity Absorption (23°/50% r.h.)	0.01 %	SO 62
Mechanical Properties	Value	Test Methods
