Part Number: MDK3/Paring Knife

Part Number: MDK35/Paring

Part Number: MDK6/Boning Knife

Part Number: MDK65/Filletter

Part Number: MDK10/Cook Knife

Part Number: MDK12/Butchers Knife

Product Description: Our Detectable Kitchen Knives are manufactured in Sheffield, England, a city with rich steel and knife making heritage. The knife blade is made from fully hardened, tempered stainless steel and is easy to clean. The handle is insert moulded from our specialized detectable plastic compound - optimised for metal and x-ray detection systems and will withstand dishwasher use.

Product Advantages:

- Can be detected by in-line detection systems
- Can be used to form part of HACCP and BRC procedures
- Show "All Due Diligence" in the prevention of foreign body contamination
- Can be used in a variety of food contact applications

Product Dimensions: 120mm x 100mm

Food Contact Status: Complies with the FDA and EU(liquid)

Detectapro recommend all our products be thoroughly tested on your metal detection systems by a trained and certified professional. It may be the case your equipment needs to be recalibrated in order to reliably detect this product. Such a professional should be available by contacting the manufacturer of your metal detection system.
